

WHAT TRAINING OR EDUCATION IS NEEDED?

WHAT TRAINING OR EDUCATION IS NEEDED?

- ▶ This varies in computer-land depending on what you are building.
- ▶ You might need a 4-year degree in something like “**Computer Science**”.
 - ▶ My degree is in “Music Education” 🙄
- ▶ If you are doing graphic design or web development (what I do), you may be able to learn on your own or attend a 3-6 month training school.
- ▶ If you are building something *really* complicated like Google or a video game, then you probably need a lot more training.

Life as a software developer.
